

Dear hiring managers:

This letter is to express my interest in your posting for a Back-end developer .

Over the past few years, I worked at TeamWill Consulting, IgnisHealth, then at Looyas.

I was responsible for the development of various Modules for the analysis of raw data related to the Health Care Systems.

I worked also as both back-end and front-end developer as well as the application of new algorithms, I also developed NLP-based solutions to build a model based on AI Artificial Intelligence that can understand and classify future clients all this work with python (Django / Flask) ,Angular 8

I also was a part of migrating the app from Angular js to Angular 8 , and establishing the NgRx Store management architecture into the app, and for cross platform we used Ionic 4 to develop the Mobile app

The Bachelor of Science in Mathematics that I obtained, My studies in the Higher School of Computer Science Finally my studies of Software Engineering at ESPRIT were determining my success during my career as a Full Stack developer .

During all projects done, I developed a solid knowledge in Python and Angular development which allowed me to obtain the trust of employer clients.

My experience at IgnisHealth and Looyas, my internships and my educational background make me fit this position well, as does my personal passion for solving logical problems.

Your time and consideration are appreciated and I look forward to hearing from you.

You can reach me at +216 52 720 724. Thank you for your attention.

Regards,

Sayari Hamza
